

# SCALA XML SETUP IN INTTELIJ

## RUN THE BELOW TEST CODE

```
object hello {  
  def main(args: Array[String]) = {  
  
    import scala.xml.XML  
    val daya = XML.load("https://flathtml.github.io/800Examples/033-CD.xml")  
    val dayaout = daya.mkString  
    println(dayaout)  
  
  }  
}
```

It should display the contents of the XML file

<https://flathtml.github.io/800Examples/033-CD.xml>

in the console.
